HORIZON

August 2026 - July 2028

24-MONTH ROADMAP

Build customer value before scaling the platform.

Earn the first payment. Retain active teams. Prove owner-confirmed ROI. Scale efficiently. Expand customer usage.

- 01 Five phase gates
- 02 Three accountable executives
- 03 Pricing, product, and success KPIs

Strategy Overview

Build evidence in sequence: payment, retention, ROI, efficient scale, then expansion.

How We Conduct the Meetings

Every meeting starts with current evidence and ends with a recorded decision or commitment.

CEO

Monday operating review

Pricing, market selection, revenue, partnerships, capital, and final phase-priority decisions.

CTO

Wednesday product checkpoint

Product quality, architecture, delivery, reliability, and safety and privacy risk.

COO

Friday KPI review

Scorecard, customer success, onboarding, action tracking, and meeting follow-through.

01 BEFORE

24 HOURS BEFORE

COO coordinates; every KPI owner contributes.

- 01 Update KPI results, task reports, quantities, evidence, and tracked metrics.
- 02 Submit only topics requiring a decision, tradeoff, or escalation.
- 03 State the desired decision for every agenda item.

02 DURING

TIMEBOXED

Meeting lead facilitates; CEO resolves company tradeoffs.

- 01 Start with the scorecard and exceptions; do not read status updates aloud.
- 02 Separate facts, assumptions, options, and the requested decision.
- 03 End every topic with one owner, success measure, and due date.

03 AFTER

WITHIN 2 HOURS

COO maintains the operating record.

- 01 Publish decisions and actions with owners, dates, and measures.
- 02 Update any changed result, task, phase gate, or priority.
- 03 Escalate any unresolved blocker older than 48 hours to the CEO.

OPERATING RULES

- 01 One directly responsible individual for every action.
- 02 No commitment without an owner, metric, and deadline.
- 03 Record every decision, rationale, and revisit condition.
- 04 Below-minimum metrics take priority over new scope.
- 05 Keep routine updates asynchronous.
